Financial Summary

Market Animal Show and Sale of Marathon County, Inc.

Rule A-7: By SEPTEMBER 1, of current year, all participants are required to submit a financial summary with a copy of the buyer thank you letter to receive your check and be eligible to participate in next year's program. Both documents can be MAILED TO THE M.A.S.S. COMMITTEE at: PO Box 389, Wausau, WI 54402-0389 OR EMAILED TO: marathoncountymass@yahoo.com.

Purpose: The Financial Summary allows the participant to collect information relative to the animal that is sold at the Market Animal Sale. Another aspect to learning about raising good quality beef, pork, and lamb, is determining common production data including rate of gain, feed efficiency, and management practices performed. In addition to learning the financial end of the project, is determining the profit made, costs involved, and feed cost per pound of gain.

The information received from the summaries may be compiled and printed without information of the individual participants. It is hoped that 4-H leaders, agricultural instructors, and other participants to evaluate and analyze the information relative to current and future situations will review the information.
