The voluntary Beef Quality Assurance Program assists in raising, feeding, and harvesting high quality beef. By participating in BQA and adopting BQA production practices, you are helping to answer the call from the packers' consumers, for safe beef raised in a humane manner.

Buyers representing some large packers and processors (including Tyson) will only purchase from farms selling beef breed type finished cattle that are BQA or FARM Certified.

Your current BQA Certification maintains interest from buyers of **beef breed type finished cattle**.

At this time, buyers of dairy type finished cattle, beef and dairy cull cows and bulls, or feeder calves are not requiring proof of BQA certification.
