WI 4-H Upcoming Events, Programs, and Activities

Area Animal Science Days

Regional animal science educational opportunities are available to Wisconsin 4-H members. Specifically, Area Animal Science Days is a series of two day-long events held around the state in June where youth in the beef, dairy, horse, sheep, and swine projects increase their decision-making skills and knowledge of animals through judging and grading experiences. Events include evaluation of dairy cattle, horses, and meat animals; dairy showmanship contests; and oral reasons workshops. In addition, each site may offer a variety of workshops for small animal projects, which may include rabbits, poultry, dogs, cats, or llamas. Go to <https://4h.extension.wisc.edu/opportunities/statewide-events-and-opportunities/area-animal-science-days/> for more information and registration.

Statewide Educational Experiences Scholarships

Each year, the Wisconsin 4-H Foundation provides a sum of money to the State 4-H Office for needs-based scholarships for youth to participate in statewide Educational Experiences. Wisconsin 4-H believes that cost should not be a barrier to program participation. Youth can apply for a scholarship by submitting their information at the Qualtrics form linked below. The responses to this form will remain confidential and will only be shared with a small committee that will be managing the scholarship funds.
